Catch the MC Windfeld Ti On Tour

See and hear the new MC Windfeld Ti on special demonstration across the UK.

Didcot, Oxfordshire – 4th August, 2017

To mark the release of the MC Windfeld Ti, Henley Audio are hosting a series of listening events across the UK, from late-summer 2017:

Ortofon are heading off on tour, across the country, visiting some of the UK's premier hi-fi retailers for a series of exclusive events geared towards vinyl playback. The Cartridge Experience Tour will take visitors on a journey through the Ortofon range, starting with the 2M Red at £95.00 and climaxing with the new high-end MC Windfeld Ti at £3,100.00.

During the events, visitors will learn more about Ortofon – the world's oldest and most respected manufacturer of phono pick-up cartridges – and also the importance of cartridges in a vinyl hi-fi system. The presentation will also cover the various stages in each Ortofon product series, explaining the difference between Red, Blue, Bronze and Black cartridges across the 2M, Quintet and Cadenza models. The events will end with an extended playback of the new £3,100.00 MC Windfeld Ti cartridge, representing the very best sound you can achieve from a good vinyl hi-fi system. There will also be an opportunity to talk with analogue experts about specific questions you may have.

The Cartridge Experience Tour is open to all, but we recommend registering your interest with your preferred venue, to guarantee you don't miss any of the presentation.

The Cartridge Experience Tour will visit:

- Saturday, August 5th: Oxford Audio Consultants (Oxford)
- Saturday, August 12th: Zouch Audio (Ashby-de-la-Zouch)
- Thursday, August 31st: Ceritech Audio (Cinderford)
- Friday, September 8th: Martins Hi-Fi (Norwich)
- Saturday, September 23rd: Deco Audio (Aylesbury)
- Saturday, September 30th: Fanthorpes HiFi (Hull)
- Saturday, October 14th: Loud & Clear (Edinburgh)

ortofon

accuracy in sound

About Ortofon

Ortofon is the world's oldest and most experienced manufacturer of hi-fi pick-up cartridges. From humble beginnings in 1918, Ortofon is a proud Danish company that has grown to become a micro-mechanical powerhouse. Their core principles of responsibly sourced high-end materials, meticulous design and production processes, pristine working conditions and superlative attention to detail are evident in every single product they make.

From the introductory moving magnet OM and 2M ranges, through the Quintet and Cadenza Moving Coil series, all the way up to the Exclusive high-end models like the flagship MC Anna cartridge, Ortofon are devoted to offering true 'accuracy in sound'.

About Henley Audio

Everyone has a different interpretation of what good sound is, and at Henley Audio we're no different. We strive to bring customers the best possible selection of hi-fi equipment from a variety of international manufacturers.

Formed in 1997 as the result of a management buy-out of Ortofon UK, Henley Designs Ltd. (trading as Henley Audio) are one of the UK's premier distributors of quality hi-fi equipment. The brands we distribute are not only highly-regarded in their own right, but they also share a symbiotic relationship with other brands in our portfolio.
