

Product Announcement

Pro-Ject CD Box S2

The affordable, compact hi-fi CD player.

Didcot, Oxfordshire – 21st February 2019

Pro-Ject Audio Systems, the Austrian manufacturer of multi-award-winning hi-fi products, are expanding their coveted Box Design range of hi-fi electronics in early 2019, reintroducing popular models with latest-generation aesthetics and technical characteristics. The CD Box S2 (£325.00 SRP), which builds on the enduring popularity of the CD Box S, is available across the UK now.

Where many other hi-fi manufacturers are moving away from the CD format, Pro-Ject Audio Systems continue to recognise that there are vast CD libraries in households around the world, and many users still want to be able to access these, without needing to first rip to a server or streaming system.

The CD Box S2 is a compact slot-load CD player, carefully manufactured to an industrial standard utilising aluminium casework and buttons. Designed to match the S2 electronics line, the added benefit to this design is that its small form-factor allows it to fit easily near any existing audio system. But it's more than just a convenience piece, as it also features a premium sound performance.

The CD Box S2 is a pure CD player, allowing 1:1 bit-accurate CD playback, performing to a higher standard than many multi-format Disc players. Compared to its predecessor, the CD Box S, the inner workings of the CD Box S2 have been technically revised, utilising a mini-computer-based system to ensure the player perfectly reads "Redbook Standard" CDs for a true audiophile sound delivery. *

The CD Box S2's new and advanced 384kHz DAC board enables a more precise and detailed conversion process, plus a new feature is the ability to switch between digital Infinite Impulse Response (IIR) and Finite Impulse Response (FIR) filters. FIR filters are more complex DSP-operations and require more computational power; however, they facilitate a finer, linear processing of the digital signal.

Controlled by either the supplied remote or the unit's front-panel controls, and featuring a clear display, the CD Box S2 is effortless to use – though its minimalist exterior hides a sophisticated piece of specialist audio equipment. Connection is also simple either via RCA or digital optical outputs.

The CD Box S2 is the hi-fi CD player for CD owners that are tight on space, not in the market for a high-end player, or for those who simply want to access their beloved CDs at any time.

SRP £325.00

The CD Box S2 is available now in Black or Silver finish.

Technical Information

Supports:	CD, CD-R, CD-RW and Hybrid-SACD
Frequency Response:	20Hz—20kHz, +/-0,15dB
SNR:	> 110dB / 20Hz – 20kHz
THD:	0.005% / 1kHz
Line Level Output:	1 pair RCA
Output Voltage:	2.1V eff.
Digital Output:	1 x S/PDIF Optical Toslink®
D/A Converter:	Texas Instruments PCM5102A
External Power Supply:	9V/2.000mA DC; 110-240V/50, 60Hz
Power Consumption:	Max. 1.5A DC (< 0.5W in Stand-By)
Dimensions (W x H x D):	205 x 37 x 165mm (incl. sockets)
Weight:	950g (excl. power supply)

** This sophisticated approach results in slightly higher start-up and reading times, but the result is an audiophile performance from a compact player.*

About Pro-Ject Audio Systems

Pro-Ject Audio Systems are widely recognised as one of the finest turntable manufacturers in the world. Their mission is simply to produce the best sounding analogue components at the most competitive prices possible. The current range spans a huge variety of price points, with a variety of products targeted to key demographics or to accommodate any of the modern listener's unique requirements.

Based in the Austrian countryside, Pro-Ject Audio Systems use specialised manufacturing partners to produce all their products, and the entire turntable range is assembled with great skill, care and attention in the Czech Republic.

About Henley Audio

Henley Audio has been importing and distributing industry-leading hi-fi equipment to the UK and Ireland since 1997. With a passion for great sound and a firm focus on brand integrity, we work to deliver excellence in both product and service.

Formed as the result of a management buy-out of Ortofon UK, Henley Designs Ltd. (trading as Henley Audio) operates in-house sales, marketing, service, support and warehouse teams in order to offer the full turn-key solution for suppliers. The brands we represent are not only highly-regarded in their own right, but they also share a symbiotic relationship with other brands in our portfolio.
