

Product Announcement

Pro-Ject Guns N' Roses Record Player

Take me down to the Analogue City with Pro-Ject's latest artist collaboration.

Didcot, Oxfordshire – 8th March 2019

Pro-Ject Audio Systems, the world-renowned manufacturers of premium hi-fi turntables and electronics, are delighted to announce a new *Artist Series* special edition turntable collaboration with one of the world's most talked about bands. After successful collaborations with The Beatles, The Rolling Stones and Parovoz Stelar, amongst others, the Austrian company are delighted to announce a new turntable design in partnership with Guns N' Roses.

Guns N' Roses are a staple of the rock music scene. Whether you grew up with their music or not, it's impossible to not feel their pure energy and emotion when you hear their instantly recognisable musical style. The virtuosity and the honesty of their performances is laid down for us all by the industry-leading analogue recording and production techniques used at the time they released some of their most popular work. Everything in a classic GnR track sounds real, everything fits together and everything sounds better than many modern recordings. So, what better way to experience their iconic sound in the modern era than with an award-winning turntable that's designed in their honour?

The Guns N' Roses Record Player is based on the popular Pro-Ject Essential III A [LINK] turntable. With high-quality audiophile components throughout – including the Ortofon OM 10 elliptical cartridge, the stable belt drive system topped with a precision diamond-cut aluminium pulley, and the 8.6" aluminium tonearm – the sound delivered can easily put more expensive systems to shame.

But what makes the Guns N' Roses Record Player unique is its appearance. For the first time with one of their turntables, Pro-Ject have directly printed artwork onto the Acryl-IT E platter. Using a meticulous printing process, the instantly recognisable Guns N' Roses logo fills the entire 12" platter surface. The end result is a yellow hue that glows above the gloss black MDF plinth, which itself features a small logo underneath the tonearm's rest position.

The Guns N' Roses Record Player is a statement to our collective love for the analogue music experience. Finished with a clear dust cover and terminated with high-quality Connect-IT E RCA cables, the turntable is immediately ready to connect to any hi-fi system with a phono stage connection.

SRP £429.00

**The Pro-Ject Guns N' Roses Record Player is available across the UK now.
Available in high-gloss Black finish.**

About Pro-Ject Audio Systems

Pro-Ject Audio Systems are widely recognised as one of the finest turntable manufacturers in the world. Their mission is simply to produce the best sounding analogue components at the most competitive prices possible. The current range spans a huge variety of price points, with a variety of products targeted to key demographics or to accommodate any of the modern listener's unique requirements.

Based in the Austrian countryside, Pro-Ject Audio Systems use specialised manufacturing partners to produce all their products, and the entire turntable range is assembled with great skill, care and attention in the Czech Republic.

About Henley Audio

Henley Audio has been importing and distributing industry-leading hi-fi equipment to the UK and Ireland since 1997. With a passion for great sound and a firm focus on brand integrity, we work to deliver excellence in both product and service.

Formed as the result of a management buy-out of Ortofon UK, Henley Designs Ltd. (trading as Henley Audio) operates in-house sales, marketing, service, support and warehouse teams in order to offer the full turn-key solution for suppliers. The brands we represent are not only highly-regarded in their own right, but they also share a symbiotic relationship with other brands in our portfolio.
