

Product Series Announcement

Jamo Studio S 801 PM Active Speakers

A new compact, active speaker joins the popular Studio 8 speaker line.

Didcot, Oxfordshire – 10th September 2019

Henley Audio are delighted to announce that Jamo, a high-value, high-performance audio company with Danish design principles and a Klipsch Group, Inc. brand, has launched a new pair of active bookshelf speakers for its popular Studio 8 series.

The new Jamo S 801 PM speakers (£289.00 SRP) combine innovative contemporary design, advanced acoustic technologies, and a balanced, natural sound performance with the absolute pinnacle of simplicity in set-up and operation, at an attractive price for consumers.

The S 801 PM is specifically designed to provide exceptional output and balanced, full sound in any application despite their small stature. Using the Jamo S 801 passive speaker design as its base, it boasts a sturdy MDF construction – available in black or white finish – that features rear-firing reflex ports for effective bass control. Sonically, the S 801 PM employs 1" soft dome tweeters with WaveGuide technology for a dynamic, powerful sound performance. The stylish, aluminized polyfibre woofers deliver deep, accurate bass from a small footprint.

The S 801 PM boasts an array of inputs and outputs that make them ideal for customers tight on space, those looking to build a first system, or even as a fidelity-focused 'second room' solution. The principle benefit of the active speaker system is that it eliminates the need for a traditional amplifier. With a string of inputs on the back panel, the S 801 PM can accommodate anything from wireless Bluetooth streaming through to digital sources (via the Optical input), laptops and computers (via the USB input) or any other source with an analogue connection (via the stereo RCA input). It's a complete hi-fi system built into a credible pair of stereo speakers.

The S 801 PM are available in two high-quality matte vinyl finishes and feature wood-grain accents around the tweeter and at the base. For a premium feel, they also have no visible fixings and are supplied with magnetic woven grilles. For added convenience, a remote control is also included.

SRP £289.00

The Jamo S 801 PM are available in black finish now. White finish will follow in Autumn 2019.

About Henley Audio

Henley Audio has been importing and distributing industry-leading hi-fi equipment to the UK and Ireland since 1997. With a passion for great sound and a firm focus on brand integrity, we work to deliver excellence in both product and service.

Formed as the result of a management buy-out of Ortofon UK, Henley Designs Ltd. (trading as Henley Audio) operates in-house sales, marketing, service, support and warehouse teams in order to offer the full turn-key solution for suppliers. The brands we represent are not only highly regarded in their own right, but they also share a symbiotic relationship with other brands in our portfolio.
