

Product Announcement

Musical Fidelity Nu-Vista 600.2

A new entry point to the flagship *Nu-Vista by Musical Fidelity* range.

Didcot, Oxfordshire – 28th January 2025

Henley Audio are excited to announce the immediate UK availability of the Nu-Vista 600.2 integrated amplifier from Musical Fidelity. After the huge success of the award-winning Nu-Vista 800.2, this new model functions as a more affordable solution for music lovers who want to access the reference-class sound quality found within the *Nu-Vista by Musical Fidelity* range.

The Nu-Vista 600.2 represents a significant upgrade over the old Nu-Vista 600 amplifier, benefiting from all the technical and design development the company carried out over the development of the new *Nu-Vista by Musical Fidelity* range. Overseen by the company's Chief of Design, Simon Quarry, the Nu-Vista 600.2 delivers a sweet sound with huge power and transparency from a visually striking chassis that gives a true feeling of luxury high-end.

Nu-Vista 600.2 features include:

- ✓ Proven audio circuitry utilising nuvistor tube technology.
- ✓ 160W+ per-channel output with total stability for easy speaker driving (8Ω).
- ✓ **NEW** dual-mono input and preamplifier circuitry.
- ✓ **NEW** redesigned front-panel with impressive display.
- ✓ **NEW** laser-trimmed volume control.
- ✓ **NEW** improved dual-mono power supplies deliver better performance.
- ✓ Six inputs, including two Balanced XLR inputs.
- ✓ Fixed and variable pre-out options.
- ✓ Luxury feel and class-leading sound.

Nu-Vista 600.2: £7,999.00 (SRP)

The Musical Fidelity Nu-Vista 600.2 is available in the UK now.

It is available with Black or Silver chassis.

Nu-Vista 600.2 in detail

The Nu-Vista 600.2 is a fully analogue, discrete integrated amplifier with dual-mono circuitry and premium components throughout. Representing the very best of luxury high-end audio, this is a complete solution that is easy to integrate with a wide range of high-end sources and loudspeakers.

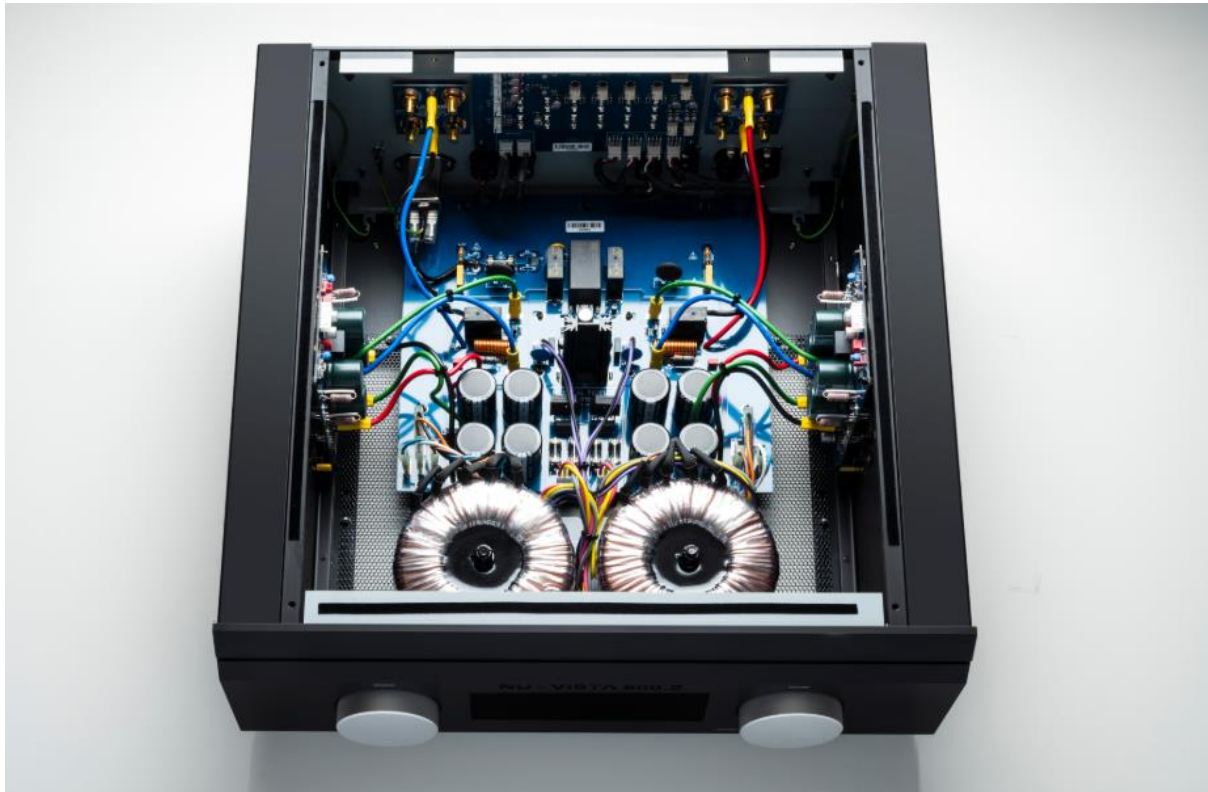

To achieve its unique sound signature, the Nu-Vista 600.2 features four 6S51N nuvistor valves in a discrete Class A amplifier buffer. These tubes are installed on a newly designed PCB, alongside the sophisticated pre-amplifier stage, on a self-screening tray that is mounted above the main amplifier circuitry, for better isolation and reduced noise. The pre-amplifier, nuvistor stage, and the input circuits are all fully dual mono, with separate power supplies for each channel.

The benefit of this new top-layer PCB design is that there is more space in the chassis for connections, so the Nu-Vista 600.2 boasts six stereo inputs, including two balanced XLR inputs. There are also three

stereo output options, including a balanced XLR variable output, which are each separately buffered, so there is no interference between the different outputs.

The power amplifier stage has been designed to mimic a “V4” engine, with four output transistors per channel, delivering 160W into 8Ω. Inspired by the iconic TITAN amplifier, the output stage couples each individual output device to its own high-current bulk supply capacitor. This configuration allows for more immediate access to stored energy and much lower impedance in the signal path, resulting in better technical measurements and low distortion, meaning the music can sound exactly as the artist originally intended.

In typical *Nu-Vista by Musical Fidelity* style, the overall construction of the Nu-Vista 600.2 is uncompromisingly solid. The front and side panels are milled from extruded aluminium profiles, contributing to a chassis that effectively acts as a Faraday cage, protecting the internal circuitry from external electromagnetic fields. Because of the overall weight, the chassis is also resistant to other mechanical vibrations and airborne interference.

Sitting between the Nu-Vista 600.2's two over-sized control knobs is a large, clear display with different view options, including a stylish VU-meter option. There is also a premium remote control, made from aluminium, which gives clear access to controls from the comfort of your listening position, making the amplifier easy to live with and use.

The Nu-Vista 600.2 is an exercise in working to achieve perfection. By utilising reference-class technologies in the technically correct way, with premium component choices and proper design principles, Musical Fidelity have produced an amplifier that measures and sounds like a dream. The Nu-Vista 600.2 feels calm and smooth, never losing control of its striking dynamic range and natural, effortless transient response. Regardless of the music you are listening to, it will always deliver the best sound possible to your ears.

Technical Data:

Type:	Stereo integrated amplifier
Valves:	4 x 6S 51N Nuvistors
Output Power:	160W (8Ω) / 300W (4Ω) / 500W (2Ω)
Output Voltage:	36V rms
Output Current:	50A (peak-to-peak)
Damping Factor:	100
Output Devices:	2 Pairs Per-Channel
THD + N:	< 0.005% Typical (20 – 20kHz)
SNR:	> 107dB (A Weighted)
Frequency Response:	10Hz – 30kHz (+0, -0.1dB)
Inputs:	4 x Line-Level RCA Inputs 2 x Line-Level Balanced XLR Inputs
Outputs:	1 x Fixed RCA Output 1 x Variable RCA Output 1 x Variable XLR Output 2 Pairs 4mm binding posts, per-channel
Power Consumption:	600W max. / 75W on and idle / <0.5W in standby
Dimensions (W x H x D):	483 x 187 x 510mm (incl. connectors)
Weight:	36kg net

MUSICAL FIDELITY

About Musical Fidelity

Musical Fidelity represents the best of superior quality hi-fi. Built on over thirty years of audio expertise, they design and engineer powerful hi-fi separates that deliver exceptional sound, high technical performance, excellent value for money and a superb build quality.

Now owned and operated by Audio Tuning, an independent audio specialist company based in Austria (famed for their Pro-Ject Audio Systems brand), Musical Fidelity still retains its proud British heritage, with every product the new company designs continuing to boast the natural, authentic sound that has made the name so respected around the world. The Musical Fidelity range is choreographed to embrace both traditional and modern requirements.

About Henley Audio

Henley Audio has been importing and distributing industry-leading hi-fi equipment to the UK and Ireland since 1997. With a passion for great sound and a firm focus on brand integrity, we work to deliver excellence in both product and service.

Formed as the result of a management buy-out of Ortofon UK, Henley Designs Ltd. (trading as Henley Audio) operates in-house sales, marketing, service, support, and warehouse teams in order to offer the full turn-key solution for suppliers. The brands we represent are not only highly regarded in their own right, but they also share a symbiotic relationship with other brands in our portfolio.
