Oxfordshire, England, 22 Jan 2021 – Klipsch (UK) and Henley Audio announce the ProMedia 2.1 BT, the powered speaker system equipped for duties way beyond just the desktop. This redesigned version of the US maker's original 2.1 compact package adds wireless Bluetooth connectivity, further boosting its flexibility. The ProMedia 2.1 BT consists of a pair of powered stereo speakers and an acoustically matched powered subwoofer, finished in black and ready for a multitude of home and office uses.

Klipsch is rightly recognised for its skill with horn-loaded speaker technology and each ProMedia 2.1 BT satellite houses an 8cm Klipsch MicroTractrix horn mid-bass driver directly below the 19mm PEI (polyetherimide) tweeter. The result is a highly efficient speaker design, complete with sweet treble and natural midrange, that produces a remarkable amount of sound from its neat footprint. The two satellite speakers deftly integrate with the Klipsch 17cm

The two satellite speakers deftly integrate with the Klipsch 17cm side-firing, ported subwoofer, creating a sound system that is significantly greater than the sum of its compact parts.

In this 'age of the soundbar' it can be tempting to brand a 2.1 system as merely 'computer speakers', but the ProMedia 2.1 BT, with up to 200 watts of dynamic power on tap, swiftly dispenses with the notion. This sub sat set-up soundtracks whatever you throw at it – from music streaming, to boxset binging, to Fortnite battling, the ProMedia 2.1 BT does it with ease.

And, remember, as bass is non-directional, the subwoofer can be conveniently placed out of the way – it just needs to connect to a mains socket and the satellites then connect to the subwoofer – leaving just a pair of compact speakers on display. Just as importantly, by eschewing the soundbars 'all-in-one' cabinet design, this 2.1 system lets you place the stereo speakers further apart, enabling an impressively far-reaching stereo image.

The topics of working from home and home entertainment have never been more pertinent and enabling great audio for both activities is hugely worthwhile. The Klipsch ProMedia 2.1 BT demands little in the way of desk/shelf/table acreage, yet brings spacious stereo sound, deep bass, and Klipsch horn-empowered clarity and naturalness. Whether it's for work, rest or play, the new Klipsch ProMedia 2.1 BT is prepared for your new normal.

The Klipsch ProMedia 2.1 BT is available in the UK now, priced £279.99 SRP. [Henley Audio](#) exclusively distributes the Klipsch ProMedia 2.1 BT in the UK and the system is currently offered for purchase online, complete with a choice of home delivery or click & collect.

Klipsch
 KEEPERS OF THE SOUND

About Klipsch

www.klipsch.com

In 1946 Paul W. Klipsch, inventor, acoustics pioneer and maverick, founded Klipsch Audio with the sole purpose of bringing the power, detail and emotion of the live music experience into his living room. Through the use of highly efficient speaker designs, handcrafted cabinetry and a thirst for real engineering breakthroughs – Klipsch, the great American loudspeaker company, was born in Hope, AR.

Today, Klipsch's diverse range of quality audio products includes speakers and headphones for almost any consumer and professional application – including cinema, whole-house, wireless, home theatre and portable offerings. Honouring their founder's legacy, Klipsch continues to be the legendary high-performance brand of

founder's legacy, Klipsch continues to be the legendary high-performance brand of choice for audiophiles and aficionados around the world. Klipsch are the Keepers of the Sound®. Klipsch Group, Inc. is a VOXX International Company (NASDAQ: VOXX).

About Henley Audio

www.henleyaudio.co.uk

Henley Audio has been importing and distributing industry-leading hi-fi equipment to the UK and Ireland since 1997. With a passion for great sound and a firm focus on brand integrity, we work to deliver excellence in both product and service.

Formed as the result of a management buy-out of Ortofon UK, Henley Designs Ltd. (trading as Henley Audio) operates in-house sales, marketing, service, support and warehouse teams in order to offer the full turn-key solution for suppliers. The brands it represents are not only highly-regarded in their own right, but they also share a symbiotic relationship with other brands in its portfolio.
