Product Information Sheet

Pro-Ject Xtension 9 Super Pack

£2,200.00 (UK SRP)

Key Features:

- Premium belt drive turntable inspired by the highly-rated Xtension 12.
- 9CC Evolution tonearm with over-sized anti-resonance assembly around the bearing
- Mass-loaded design with heavy plinth and platter
- Pre-fitted with an Ortofon Quintet cartridge.
- Built-in speed control for clean signal generation to the motor and accurate timing
- Heavyweight record puck included
- 2 stunning finishes (Gloss White, Gloss Red (shown))

Compact Luxury!

The Xtension 9 takes all the advanced design principles found in the internationally-lauded Xtension and Xtension 10 turntables, but squeezes the benefits into a more compact, rack-friendly unit. The high-gloss plinth is an MDF construction filled with metal granulate, giving a high-mass and non-resonant construction. The platter, which rides on an inverted ceramic ball bearing, is made of a non-resonant alloy that has been damped with Thermo-Plastic Elastomers (TPE) and topped with recycled vinyl records to produce the perfect playback surface. The whole turntable is then decoupled from its base by the newly-designed magnetic feet - essentially creating a floating turntable that uses high-mass to stop internal resonance transference.

The Xtension 9 Super Pack benefits from a pre-fitted 9CC Evolution tonearm and matching Ortofon Quintet MC cartridge. The 9CC Evolution uses a single-piece carbon fibre tube that can send any unwanted vibrations away from the audio cables thanks to the over-sized heavyweight assembly surrounding the gimble bearing.

Technical Data:

Speeds:	33, 45 (electronic speed change)	Aluminium Feet:	Magnetic & TPE damped
Speed Variance:	± 0.09% (maximum)	Wow & Flutter:	± 0.01% (maximum)
Platter:	5.4kg TPE-damped alloy	Bearing:	Inverted Ceramic
Eff. Arm Length:	230mm	Rumble:	-71dB
Overhang:	18mm	Tonearm Cable:	Connect-IT 5P C
Dimensions:	465 x 350 x 185mm (lid closed)	Weight:	16kg
Included Accessories: 5-Pin - RCA Tonearm cable, Heavy Platter Puck, Dust Cover
