### Stereo Box S2 BT - audiophile integrated amplifier with Bluetooth input!

Two separate line level inputs connect to two sources via the RCA plugs, additionally one wireless Bluetooth input is available for all modern sources. This makes Stereo Box S2 BT the most modern audiophile integrated amplifier within its pricerange! With its tiny formfactor it fits into every environment and the stylish silver or black full aluminium/metal casing is sure to be a great match for any interior. The solid casing not only looks gorgeous but also protects against vibrations and unwanted interferences. For superior convenience Stereo Box S2 BT is fully remoteable, switch inputs and control the volume with the ease of pushing one button!
