Step into the world of high-end audio with The Arranger, designed for audiophiles who demand more than just listening. Its 44 mm Austrian Audio-designed driver with DLC diaphragm and proprietary ring magnet delivers outstanding impulse control, clean, distortion-free bass down to 5 Hz, and rich, controlled lows. The open-back design creates a wide, natural soundstage where every instrument feels perfectly placed in space, not floating in your head.

Comfort meets craftsmanship: soft suede leatherette ear pads, a foldable metal frame, and full metal hinges make long sessions effortless, while replaceable ear pads and headband ensure longevity. Fully serviceable and crafted in Europe from premium materials, The Arranger is a headphone built to last – a true long-term investment in sound.

Professional connectivity via the 4-pin symmetrical socket supports the included TRS cable and optional balanced Pentaconn or 5 pin XLR cables. Whether at home or on the move, The Arranger delivers music with unmatched precision, depth, and emotion.
