Loewe **vega**

High performance Ultra HD smart TV in classy design

Brilliant and natural 4K Ultra HD picture

Comfortable TV watching and streaming in 4K Ultra HD resolution with a full range of HDR formats including Dolby Vision IQ, delivered by panels exclusively tailor-made for Loewe in 32 and 43 inch diagonal.

Based on VA type LCD technology with full array Direct LED backlighting, up to 390 LEDs as well as special phosphors, they achieve both: wide colour gamut for natural and vibrant colours, as well as great contrast with pitch black and high brightness in a 4K Ultra HD resolution even for the compact 32 inch size.

Loewe dual channel platform

The Loewe chassis SL8 is based on a high performance main CPU for fast operation and full support on features, apps and connectivity standards. The dual channel technology with twin triple-tuners allows parallel USB recording and USB timeshift while watching another live TV program.

The HDMI 2.1 inputs support Ultra HD resolution @ 120 Hz VRR for latest gaming consoles. The HDMI eARC input supports modern active soundbars to enjoy the latest movie audio codecs such as Dolby Atmos in high quality surround sound.

Premium smart operating system

Loewe os9 based on Vidaa U9 is a most convenient and super fast smart TV operating system. The app store offers a curated selection of smart apps and a rich variety of video-on-demand services, including e.g. Netflix, YouTube, Disney+, Apple TV and more.

The system is also compatible with advanced networking features: The support of dlna, Miracast, Apple AirPlay and Matter allow comfortable content sharing and control via the home network.

Integrated front-firing soundbar

Superior sound with 60 watts, clear speech-intelligibility and Dolby Atmos processing: Our own in-house Loewe audio development and sophisticated sound tuning ensures best acoustic reproduction and movie enjoyment.

Adding the wireless Loewe klang sub1 makes it a veritable 2.1 system with more bass. Or connect a We. BOOST home theater system or a Loewe klang bar3 mr via HDMI eARC for an impressive home cinema experience. With Bluetooth or Apple AirPlay you can also enjoy direct music streaming.

Sophisticated 360° design

Design and quality Made in Germany: The well refined design with a brushed aluminum frame, a high quality speaker grill for the soundbar, all hidden connections and a cable management with cable tunnel and covers, is without comparison.

The mechanical construction is clever and robust, with solid VESA bolts funded in the metal main structure. A rotatable table stand made of metal with a real chrome finish creates a fine appearance.

Modular setup solutions

Optional accessories and setup solutions allow an individual adoption of your TV to perfectly fit your needs and living space.

The rotating Loewe floor stand chrome presents Loewe vega most elegant. The floor stand universal or the unique Loewe floor2ceiling stand creates its own impressive style. Different Loewe wall mounts support any wall installation.
