Dimension W x H x D (D with sockets): 120 x 32 x 100 (115)mm

Weight: 250 g without power supply

BT Box E HD: Wireless aptX HD streaming at an absolute bargain price!

Smartphones and tablet computers offer the possibility to stream music wirelessly via BT. The BT Box E HD is a cost-effective solution for streaming audio to your existing hi-fi system, either by analogue RCA or digital optical connections.

Standard SBC codecs and audiophile quality aptX and high-resolution aptX HD wireless transmissions are supported via our new Bluetooth 5.0 enabled BT Box E HD. Pairing any device to the BT Box E HD is quick and easy, and each connection works reliably within a radius of up-to 10 metres (when in direct sight). There is also an internal memory for up-to 8 different wireless devices, so the whole family can stream their own content with ease. To add Bluetooth streaming to your existing turntable, the Phono Box E BT5 is the perfect addition for high-resolution Bluetooth streaming from turntable to your BT Box E HD.
