

The bigger and better compact integrated amplifier

MaiA S3 Integrated Amplifier

Continuing in the tradition of our successful MaiA amplifiers, the MaiA S3 packs a nice punch and offers high connectivity in a small package.

The MaiA S3 is available for MSRP 599 € (incl. VAT) at Pro-Ject dealers June 2022.

The product information sheet and high resolution images can be downloaded here.

For further information see the following pages.

MaiA S3

My Audio Integrated Amplifier in a new case

- The MaiA S3 offers the quality and value you'd expect from a Pro-Ject component in our new case design and size, providing more space internally and better shielding against electro magnetical interference than before.

Ready for any connection

- The MaiA S3 offers eight inputs. Ready for digital or analog sources, wired or wireless – you're covered. The phono section can handle MM, MI, or high output MC cartridges. Hook up your tuner or any other analog device to one of the three line-level RCA inputs. The DAC section allows a coax and two optical connections. The high definition AptX Bluetooth 5.0 wireless input allows streaming your favorite music via your phone.

Outputs for now and the future

- Run a pair of your favorite speakers on the rear and a pair of headphones off the front panel. The included remote control covers all major functions from the comfort of your favorite listening chair. Need more power in the future? Feed your power amplifier through the variable outputs, and you're set.

The history of Pro-Ject

Pro-Ject was founded in 1991, during the onslaught of the compact disc and CD players, with the mission to offer the best analogue experience for a reasonable price. In a time where the digital audio media had been on the rise, and vinyl was declared as outdated and dead, Heinz Lichtenegger kept his belief in the simple but best way to enjoy music – turntables.

We aim to get as many people as possible into the wonderful hobby that is HiFi audio and to deliver a real stereo experience for the lowest cost possible. The best way to start is with a proper turntable. We want to give the customers back the right to choose what they need, without overblowing our products with unnecessary features.

Here at Pro-Ject, we strive to create astonishing products with impeccable value. We only use the best components for the price and manufacture our handmade goods solely in Europe. With an eye for future trends, we are always trying to fit the needs of the market.

Our passion and drive have been recognized by many acclaimed magazines. We have won multiple awards from the renowned HiFi press for our turntables and electronics over the years. Our products have also been used in countless TV shows and movies.

With cutting edge technologies and machines, we can create visually pleasing products without losing the eye for the finest details. We closely work with partners from the music industry, such as Universal Music Group (The Beatles), Third Man Records (Jack White), The Rolling Stones, Parov Stelar, or the world-famous Hard Rock Café. Many industry leaders also cooperate with us, like the Vienna Philharmonic Orchestra or Ortofon for their jubilees. With these partners, we create special limited edition products to give our customers even more choices.
