

INSTRUCTIONS FOR USE
Pro-Ject Stream Box E

Dear music lover,

thank you for purchasing a Pro-Ject Audio Systems streamer.

In order to achieve maximum performance and reliability you should study these instructions for use carefully.

Warning of a hazard for the user, the unit or possible misuse.

Important notice.

Safety instructions

AC outlet voltages vary from country to country. Before connecting to the mains, make sure that the voltage in your area meets the voltage requirements printed on the power supply.

The power supply is used to connect/disconnect the unit from the mains. Make sure that the power supply is easily accessible at all times. Never handle the device, the power supply while your hands are wet or damp. Avoid letting liquids enter the device or the power supply. Never place any item containing liquid, such as a flower vase on or near the device. Never spill any liquid on the device or the power supply. Never place any naked flame sources, such as lighted candles on or near the device. The product shall not be used in damp or wet locations, next to a bathtub, sink, swimming pool or any other similar conditions.

Connectors

1. Make all connections whilst the unit is disconnected from the mains.
2. Never connect or disconnect power supply to or from the unit whilst the power supply is connected to the mains! Never use any other power supply than the one supplied with the unit with the exception of dedicated Power Boxes which can replace original power supplies.
3. Take care to connect the left and right channels correctly. The right channel is usually marked red, the left channel black or white.

Analog input (In)

An analogue source device (turntable, tuner, CD-player, etc.) can be connected to the input sockets marked **In**.

The connected source device can be streamed to compatible Pro-Ject Audio Systems and WiiM streamers. Please read more under **Multiroom Input Streaming**.

Analog output (Out)

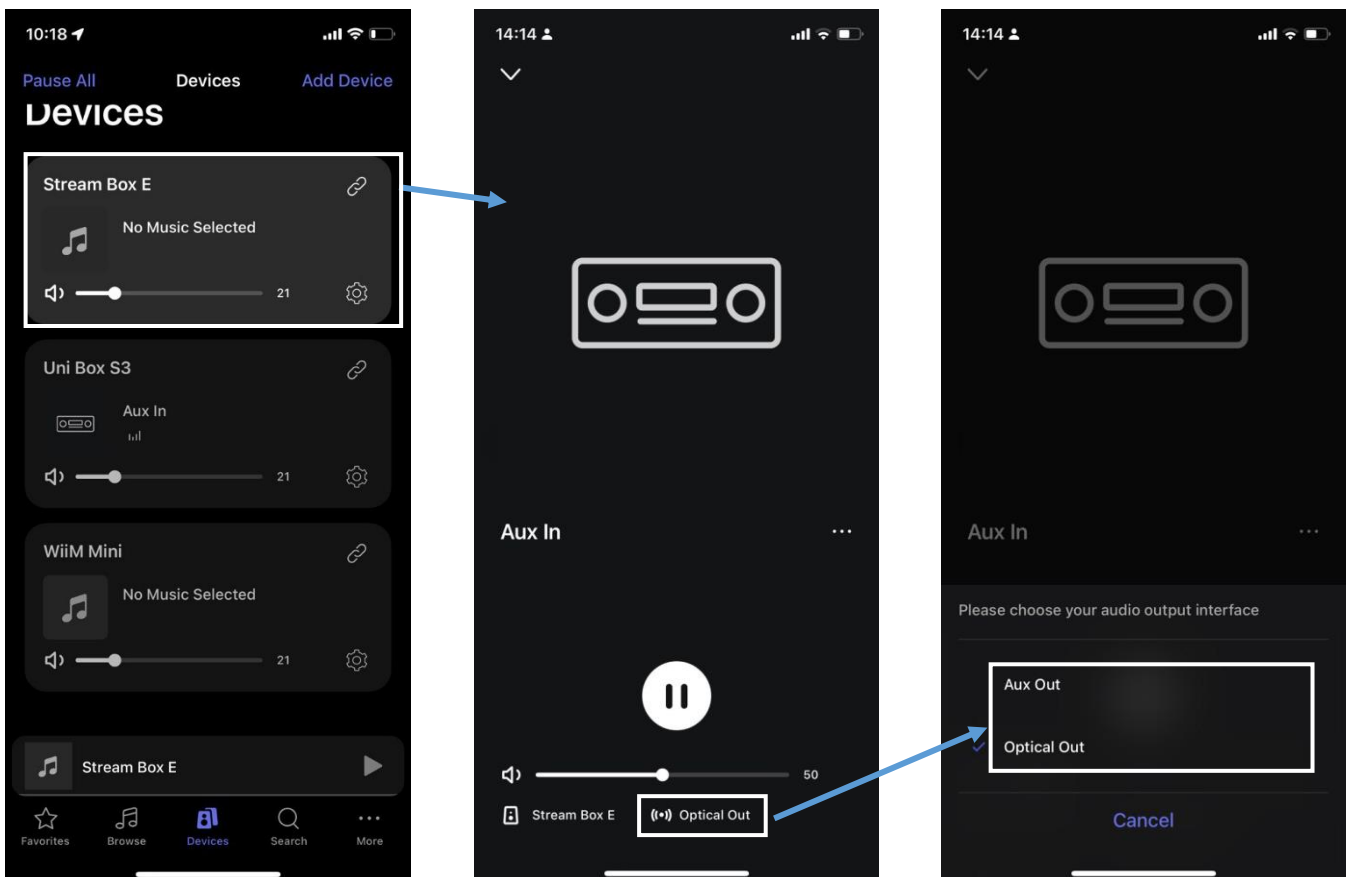

A pre amplifier, power amplifier, integrated amplifier or active loudspeakers can be connected to the output sockets marked **Out**.

Digital output (Optical)

A separate DAC or digital inputs on our pre amp or integrated amp can be connected to the output socket marked **Optical**.

Output selection

Select in the **Pro-Ject Home App**, which output to use: **Aux Out (Analog output)** or **Optical Out (Digital output)**

Mains power connection

Connect the low voltage plug from the power supply to the **5V Power** socket before connecting the power supply to the mains.

Front panel controls

Power On

The unit powers on as soon as the mains power connection is connected.

Play/Pause

Pressing the button ► plays or pauses the last played digital stream.

 **Factory & WiFi Reset**
Press and hold the Play/Pause button for 10s. Factory reset clears all streaming - source, volume, and network - settings and returns the unit back to the original factory settings.

Volume

Adjust the volume to the desired level, using the + / – buttons.
The volume can also be adjusted in the **Pro-Ject Home** app.

Streaming, WiFi & BT connection

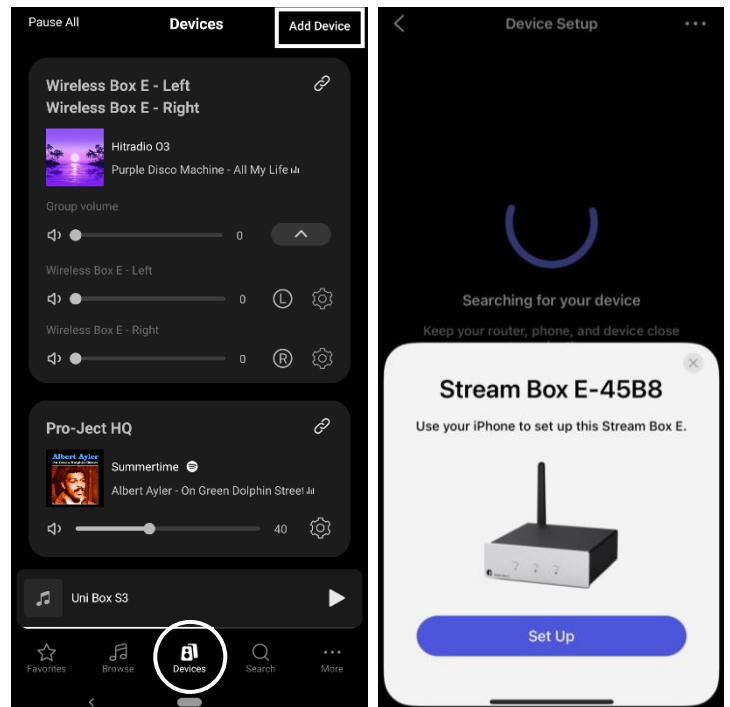

The antenna comes factory attached on the back panel.

WiFi Setup

- Download the **Pro-Ject Home** App (available for Android and iOS)
- Power on the Stream Box E
- Open the **Pro-Ject Home** App
- The app will automatically find the Stream Box E and walk you through the setup process.
- If not tap **Add Device** in the top right corner in the **Devices** tab.

Make sure to give the app Bluetooth access on your phone for this to work.

Spotify Connect

Use your phone, tablet or computer as a remote control for Spotify. Go to spotify.com/connect to learn how

The Spotify Software is subject to third party licenses found here:
<https://www.spotify.com/connect/third-party-licenses>

Bluetooth Connection

Pairing phones:

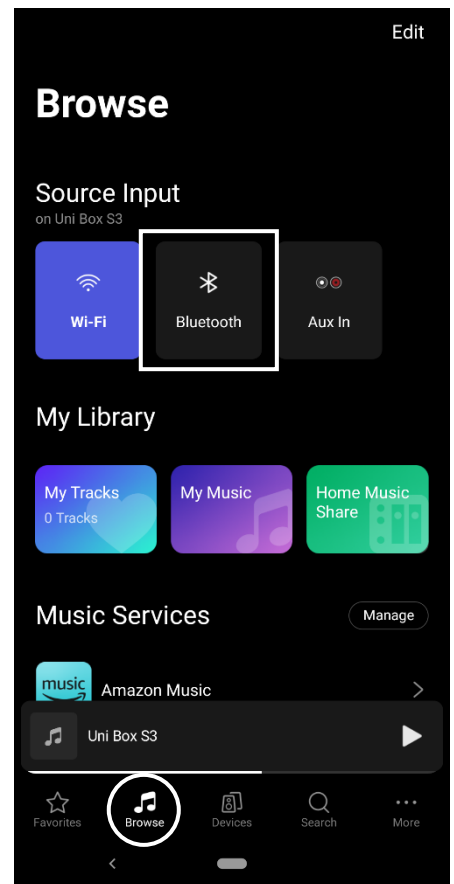

- In the **Pro-Ject Home** App go to **Browse** and select **Bluetooth**.
- Make sure Bluetooth is turned on on your phone. Open your phone's Bluetooth settings and look for a new Bluetooth device called "**Stream Box E**". Tap on "**Stream Box E**" to pair your phone.

Pairing a Pro-Ject Bluetooth turntable:

- In the **Pro-Ject Home** App go to **Browse** and select **Bluetooth**.
- Put a vinyl record on your turntable and start playing the record (Bluetooth on your turntable still turned off).
- Turn on Bluetooth on your turntable.
- Wait a few moments, the connection is established automatically.

Bluetooth Troubleshooting:

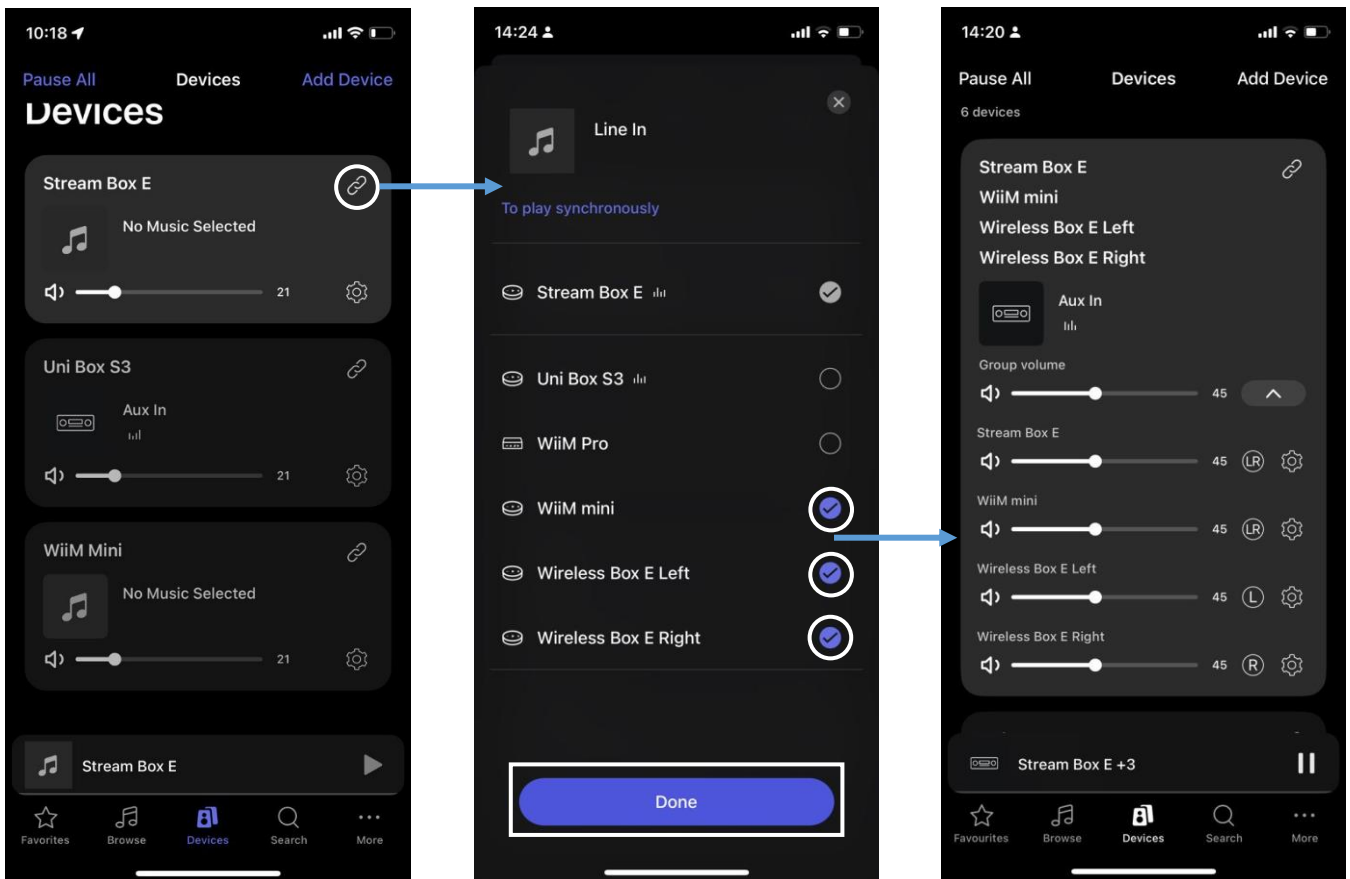

- Make sure the two devices to be connected are in as close a proximity as possible.
- Your phone is typically very close to the Stream Box E when you try to connect it via Bluetooth.
- Probably, your turntable is not. But the same rules apply. Establishing Bluetooth connections works best when the devices are as close as possible to each other. If possible, within 1-2 meters.
- Make sure nothing else is connected via Bluetooth to the Stream Box E when trying to connect new devices. Turn off Bluetooth on ALL other devices except the one you want to connect.

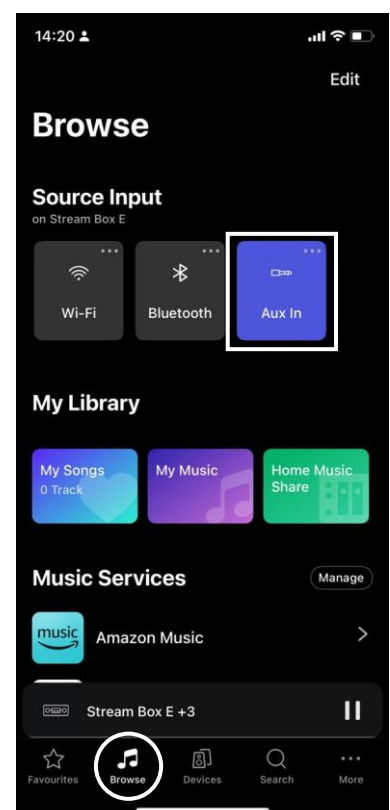

Multiroom Input Streaming

The Stream Box E can stream its analogue input to other compatible Pro-Ject and WiiM streamers.

- 1) Group all devices the Stream Box E should stream to:

- 2) Tap on the group to select it. Tap **Browse** and select **Aux In**.
- 3) Enjoy your turntable, CD player and all other locally connected audio sources across your entire home!

Technical specifications Pro-Ject Stream Box E

Digital output:	1x Optical S/PDIF (up to 24bit/192kHz)
Analogue line level outputs:	1x RCA socket variable output
Analogue line level inputs:	1x RCA socket
DAC:	TI PCM 5121 (up to 24bit/192kHz)
Wireless connectivity:	Wi-Fi 5, 802.11 b/g/n/ac 2.4 G and 5G dual bands, BT 5.1
Streaming control app:	Pro-Ject Home
Streaming Services:	Tidal, Tidal Connect, Spotify Connect, Amazon Music, Qobuz, Deezer, Soundcloud, Webradio (TuneIn, vTuner, iHeartRadio, BBC Radio) <i>*supported streaming services can change without prior notice</i>

UK PSTI Statement of Conformity

Audio Tuning Vertriebs GmbH hereby declares that this Stream Box E complies with the applicable security requirements set out in Schedule 1 of The Product Security and Telecommunications Infrastructure (Security Requirements for Relevant Connectable Products) Regulations 2023 at the time of this Statement, required by the UK government in the Product Security & Telecommunications Infrastructure Act 2022.

Audio Tuning Vertriebs GmbH will provide software security updates for this product as described on this webpage: <https://www.project-audio.com/en/product-security-software-updates/>

If you detect a vulnerability with this product, please contact us following the guidance covered on this webpage: <https://www.project-audio.com/en/data-protection-declaration/>

This statement was last updated on 01.05.2025.

Waste from Electrical and Electronic Equipment (WEEE): This directive mandates the collection and recycling of electronics and component materials in order to reduce the amount going to landfills. Outside North America, when the user decides to discard this product, it must be sent to a separate collection facility for recycling. Please contact your point of purchase for more details.

Federal Communication Commission (FCC) Interference Statement FCC Part 15: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. FCC Radiation Exposure Statement: This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

To maintain compliance with FCC's RF exposure guidelines, this equipment should be installed and operated with minimum distance 20cm between the radiator and your body. Use on the supplied antenna.

Contains FCC ID: 2ANOG-ASR001
