Power consumption: 4,5 watts
Dimensions: 420 x 112 x 330mm (WxHxD)
Weight: 4,0 kg net

Special collaboration between Pro-Ject and Hard Rock Café

This wonderful collaboration between Pro-Ject and the Hard Rock Café has brought out a very unique turntable. The turntable comes with a very special artwork from Hard Rock, making this turntable not only an affordable masterpiece but also a true collector's item and a must have for every Hard Rock fan. The supplied cartridge comes from our long time partner and phono pioneer Ortofon. The preinstalled MM pickup, OM5e, is just like the deck itself in a class of its own and serves the turntable with pure audiophile sonics, which are almost too good for the price.

The Hard Rock Café Turntable is a limited edition, making it even more valuable.
